

Optimize Industrial Sites for Max Efficiency

TestFit's real estate feasibility platform makes it easy to do site planning. Our **generative design** creates a multitude of iterations with your set goals and presets in mind, so you can **find the most efficient layout for industrial buildings in seconds.**

Cross Dock

Increase efficiency in your warehouses, storage, and distribution center with a cross-dock layout.

Single Dock

Use a single dock layout for data centers, manufacturing buildings, and more.

TestFit is transformational. We've shaved days off of our analysis by using the AI capabilities of this software, which allows us to **make smarter decisions faster.**
